

Vi har løsningen på Output Management

Mads Stenbye & Hans Chr. Møller-Hansen
2023-09-20

We offer a wide set of services:

M3 Consultancy services

M3CE implementation

Cloud Transformation (M3CE Upgrade)

M3 & CloudSuite Consulting

Novacura Consulting

M3 Support & Services (Care)

Solution Support

Service Delivery Management

M3CE Update Management

M3CE Solution & Integration Monitoring

M3 Output Management

M3 Core Application Maintenance

M3 Performance Monitoring

MS SQL Administration Service

Columbus Global Services

Digital Commerce

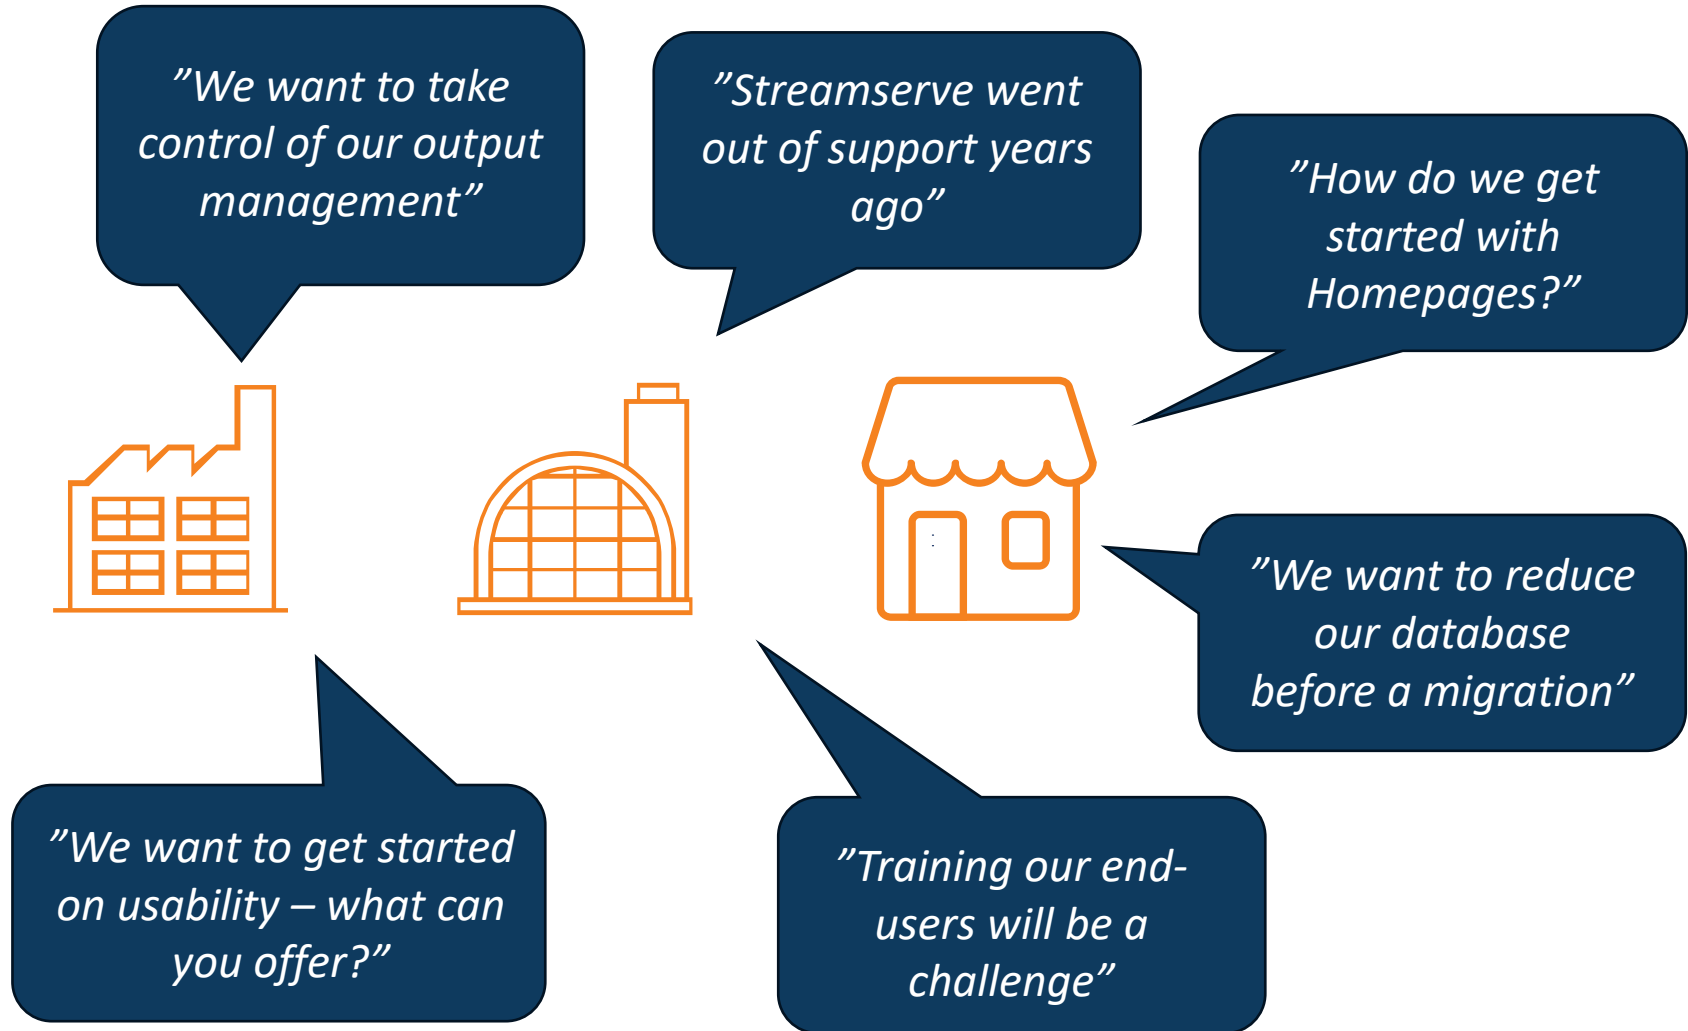

Data & Analytics

Security & Compliance

Customer Experience & Engagement

Strategy and Change

We are offering concrete solutions to *your* challenges:

M3 Solutions & Packages

InterForm M3 Package for Output Management

M3 Usability Lift

Exstream Upgrade

Medius AP Automation for M3

M3 Data Archiving & Quality

Educational Booster Kit

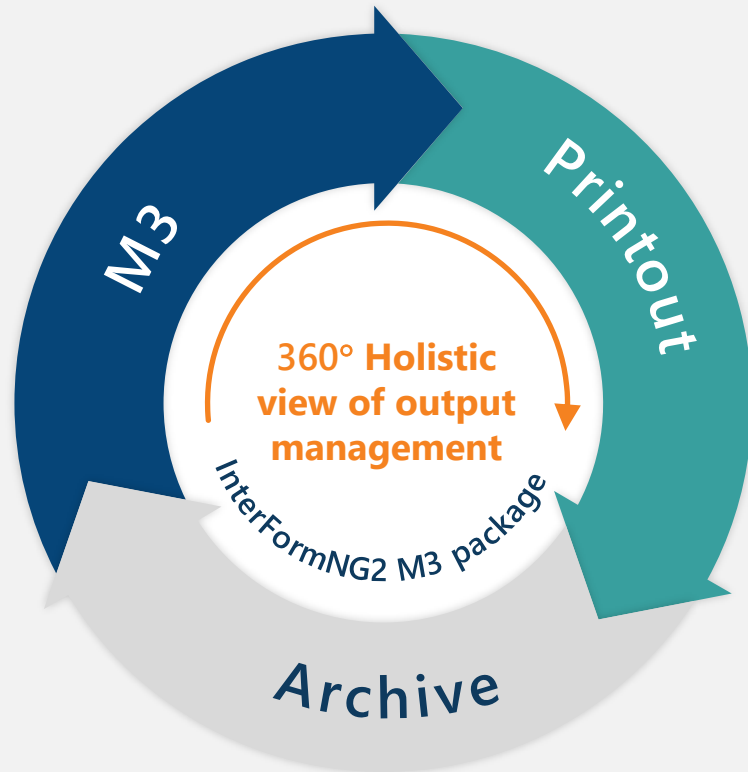

Output Management for M3

IT leaders are looking for innovative solutions to simplify their output management processes

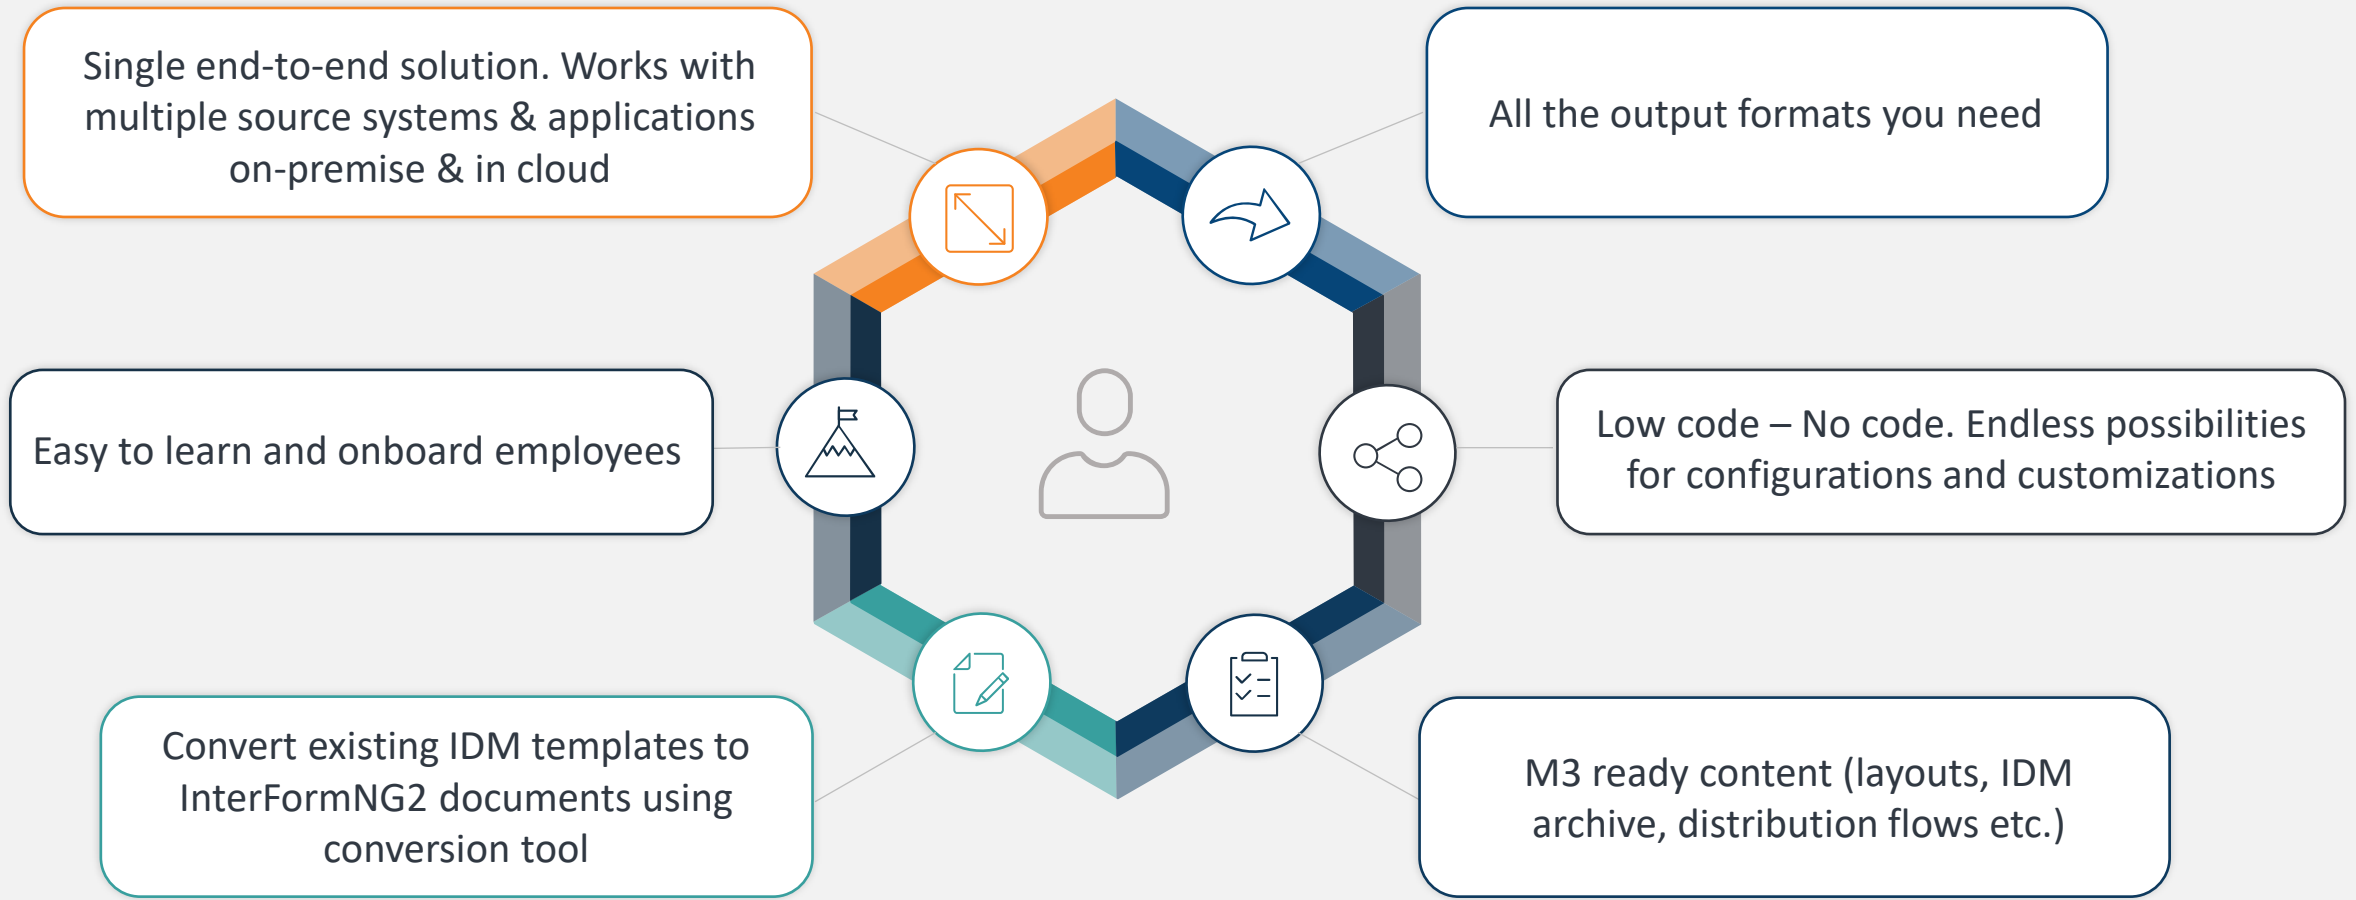

Intelligent Solution for M3 Users: InterForm M3 Package

The Interform M3 Package is a 360-degree output management solution that contains the necessary components for enhancing output management processes within the M3 ERP environment (On-prem or Cloud). It helps organizations streamline document creation, formatting, distribution, and archival tasks in a smooth and intelligent way.

The right tool for Infor customers

InterForm Today

InterForm Intelligent Output Management

THE BEGINNING

- 30 years of experience
- Infor partner since 1999

LOCATIONS

- HQ in Copenhagen Denmark
- Regional offices in Germany
- Support center in USA

SHARED INSTALL-BASE WITH INFOR

800+ Infor customers globally
With M3, S21, LN, LX, XA, COM and more

MANAGES
1.000.000.000+
of print every year

4000+

Number of installations

50+

Distribution partners

60+

Number of countries

+15 years

Average customer loyalty

Solution Partner

15+

Years of Channel partner collaboration

Shared roadmap and development meetings

Distribution in any format in any channel you need

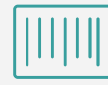

FAST LABEL PRINTING

High performing label printing.
500+ templates

ELECTRONIC SIGNATURES

Collect Paperless, Digital Signatures Hassle-Free with InterForm

RFID PRINTING

Several industry formats supported

UNICODE & BARCODE

Full UNICODE/DBCS and 1D & 2D barcode support

LASER PRINTING

Laser printing is a native functionality in InterForm Output Management software

XML

Create any XML format like ZUGFeRD, Xrechnung, UBL, PEPPOL...

PDF & PDF/A

Merge, Embed, Encrypt, Password protect or apply from fields to your PDF

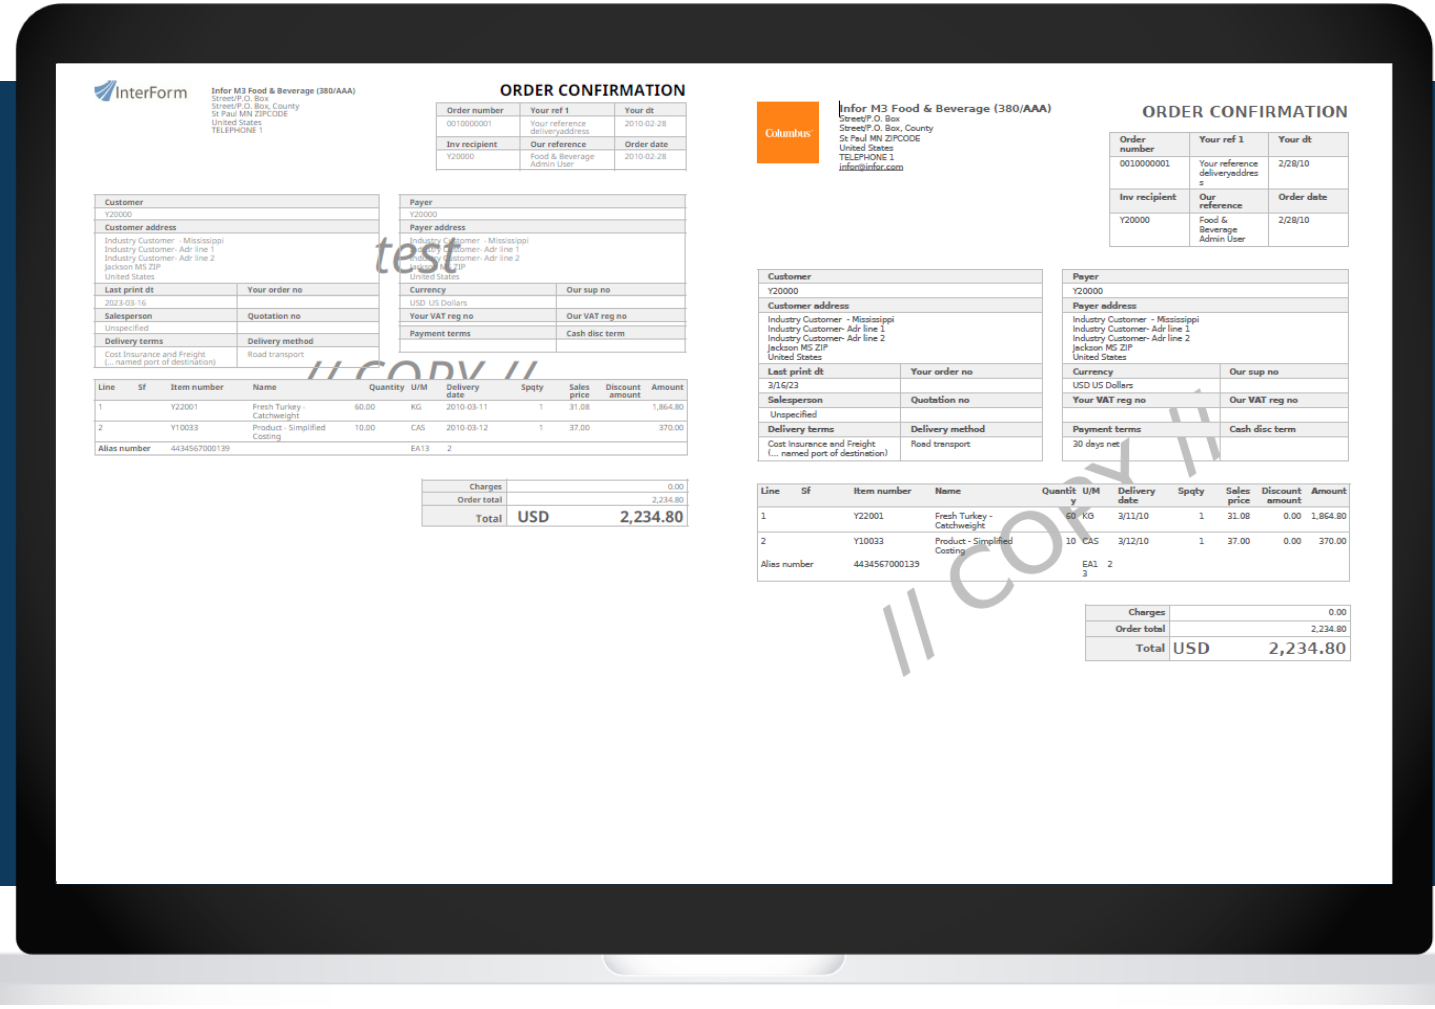

NO INTERRUPTIONS

Redirect your print job to a new printer if printer is offline

Conversion tool

- M3 package comes with access to conversion tools to convert existing IDM Word templates to InterFormNG2 documents and reports
- PDF files can also be converted into InterFormNG2 documents to keep existing layouts

Development made easy

- Start from generic workflows that is setup for all the M3 documents
- Extend the generic workflow with your own logic
- Build your own custom workflows using building blocks
- Follow your workflow step by step in the log file

Advanced layouts

Weight specification

Multiple items with many lot and subplot numbers needs to be grouped and ordered

- Sum of weight for each item
- Lot numbers in order
- Sublots listed under main lot
- Sublots organized in columns with a horizontal orientation

Interform M3 Package: intelligent output management solution

Elevate Efficiency & Compliance

Interform M3 Package: intelligent output management solution

Interform M3 Package: intelligent output management solution

The Interform M3 Package is a 360-degree output management solution that contains the necessary components for enhancing

Why InterFormNG2 is the best solution for M3 output management

We are thinking output management as a part of M3 and not just something that is added to the ERP. The InterForm M3 package is build to extend the IDM output management solution.

No proprietary file formats
Work with the XML-structure and logics designed by Infor

M3 ready content gives you a high starting point

Take control
Host the solution where and how you want
Use independent partners

We do this together and learn from each other

Use the right tool

We know output and we know M3, therefore we place the logic where it belongs.

The partnership between Columbus and InterForm ensures that you have access to the best advisors on both M3 and output.

Become the part of the community

The user group for InterForm M3 output management solution plays a key role in improving its development and content. Through collaborative efforts across companies, we work together to incorporate new ideas and insights.

WHAT YOU GET:

Ability to quickly influence future development of both the InterFormNG2 platform and the M3 content pack

Ideas & insights from users of the solution

Networking & fun collaboration
