# Process Mining – Process Intellegence

## **Process Mining**

Process mining is a technique to analyze, improve, and track processes.

By 2025, more than 60% of large enterprises will adopt process mining technologies, up from approximately 20% in recent years.

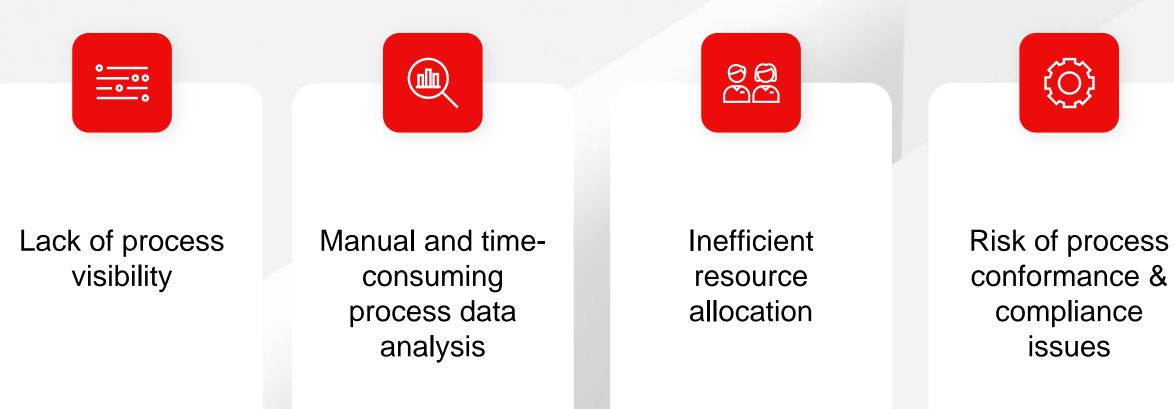

Gartner Magic Quadrant for Process Mining 2024

# Key take aways

Infor is no longer a pure ERP company – we're an innovative Industry Cloud company.

### Infor Velocity suite contains of **solutions** that are proven to **deliver results** and realize **value**.

- **Process Mining** to identify pain points and areas with potential for improvements
- Value+ pre-packed solution to streamline and automate business processes
- **GenAl** great potential for improving usability and saving costs

### How to get started?

### Reach out to Advanced Services:

Hallgeir Øvrebust - <u>hallgeir.ovrebust@infor.com</u> Isaac Eriksson – Isaac.Eriksson@infor.com

### Or talk to your local:

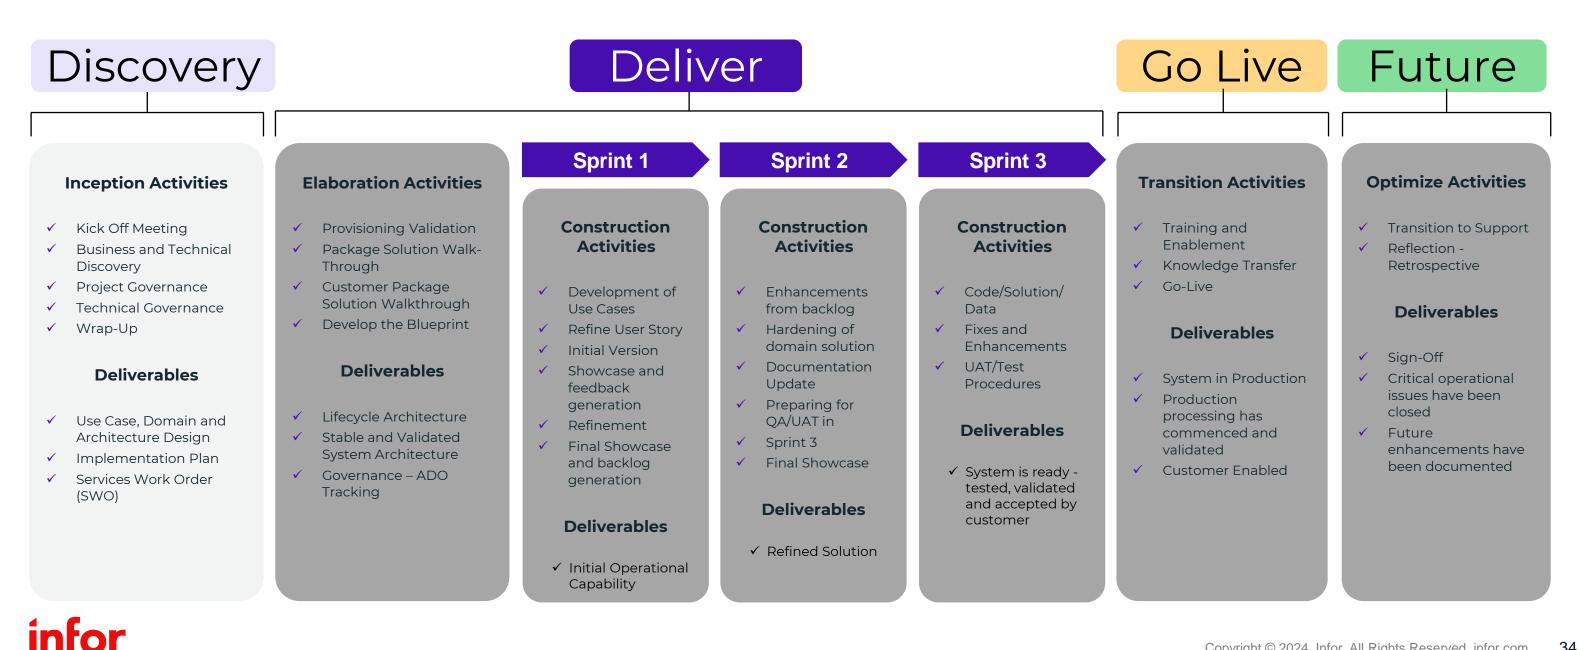

Client Partner or Sales Executive Jonas Johansson - jonas.johansson@infor.com

## ry Cloud company. **results** and realize **value**.

# How do we Implement Innovation?

Our implementation approach leverages agile methodologies for a tailored and efficient deployment of Infor solutions. We start with the Discovery phase to understand your unique landscape. Next, we move to the Deliver phase, iterating solutions through agile Sprints. After going live, we transition to the Optimize phase, providing ongoing support and enhancements to ensure long-term value and performance.
