“Modern and cool banking solutions are only for small & medium businesses and ERP’s!”

FALSE!

Modern Banking Solutions for M3 – Why?

Business challenges require integrated business and technology solutions

For Finance / Accounting

- Efficient handling and reconciliation of payment transactions in M3.
- Automated reconciliation of bank and credit card transactions.
- Eliminating manual file handling and reduces errors between ERP and bank systems.

For IT / ERP Responsible

- Managing frequent changes in banking integrations and formats.
- Handling multiple bank connections and possible bank changes.
- Supporting integrations across multiple ERP systems and countries.

For the CFO

- Limited visibility across accounts, banks, countries, and ERP systems.
- Need for consolidated, real-time financial overview across companies.
- Streamlined payment processes with efficient approval workflows.

Hva er bankintegrasjon?

Kobler ERP-systemet ditt til banken

... for automatisert, sikker og realtidsutveksling av finansielle data

Hovedfordeler:

- Ingen manuell filhåndtering
- Eliminerer risiko for menneskelige feil og utro tjenere
- Økt sikkerhet og regulatorisk etterlevelse
- One to many-integrasjoner - enkelt å komme i gang
- Aritma forvalter aktivt integrasjonene
- Mindre teknisk gjeld mot bank – forenkler bankbytter

Det beste?

Svært skalerbar løsning som skaper reell verdi for alle typer virksomheter

→ fra små og mellomstore bedrifter til store konsern.

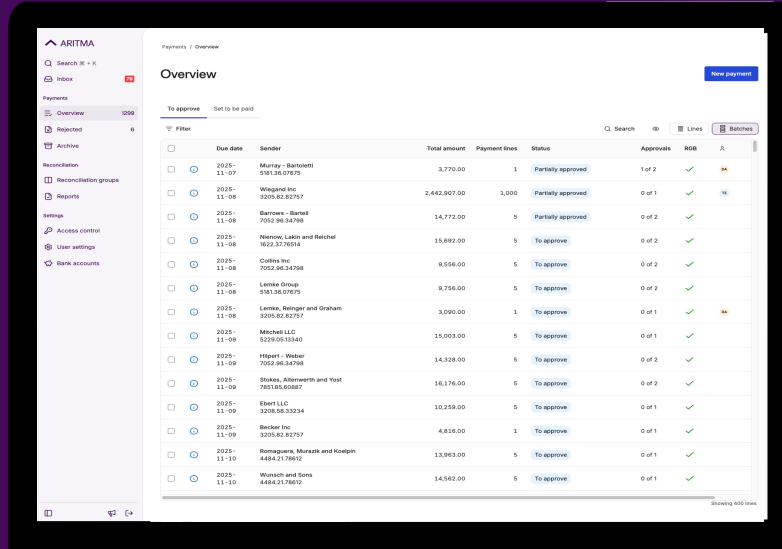

Integrert med
250+ banker i
Norden!
